Caliber Collision Centers Collects More Than 4 Million Meals to Feed Kids This Summer

LEWISVILLE, TX (June 2018) -- Caliber Collision teammates nationwide rallied customers, business partners, and local communities to collect a record 4.25 million meals in their recently completed 7th Annual Rhythm Restoration Food Drive to feed at-risk children over the summer months.

Cash and food items collected from Caliber's Rhythm Restoration Food Drive will help 50 regional food banks replenish and stock their pantries over the summer months when demand is highest for families with children who do not have access to school lunches. According to Feeding America, of the 22 million children who receive free and reduced-price lunches during the school year, only four million continue to receive subsidized meals over the summer months.

What started out as a regional grassroots effort has now mushroomed into an industry-wide campaign involving each of Caliber Collision's 571 locations in 18 states along with more than 80 local, regional and national business partners who contributed cash and food donations for kids across America.

"Our teammates set a lofty goal to collect 3.7 million meals over six weeks. Then they bested their best by rallying their own individual center teammates, our valued customers and business partners from every area of our company," said Steve Grimshaw, Caliber Collision Chief Executive Officer. "We are incredibly proud of our teammates who are truly inspired to serve, and grateful for the generous support from our customers and partners who joined us in our commitment to help reduce childhood hunger during the summer months."

Over the past seven years, Caliber Collision's annual Rhythm Restoration Food Drive has become the largest food drive effort in the collision industry, collecting thousands of pounds of food and over \$1.8 million in cash, resulting in more than 14 million meals donated to 50 food banks across the U.S.
